

HIGH RISK PAYMENT PROCESSING

- Fiat Processing
- Crypto Processing
- Additional Services

FIAT PROCESSING

- 0% Chargebacks
- Instant settlement (T+0)
- Instant Crypto exchange
- 0% Rolling Reserve
- Fully decentral
- Fast RestAPI integration

➤ Each transaction is instantly converted to USDT on the Polygon blockchain and sent directly to your personal decentral wallet. You always have full, immediate control of your funds!

➤ For the first deposit, clients go through a simple KYC process. Only an identity proof (e.g. passport) and a face scan are required. After that, no KYC is needed for future deposits!

➤ 2-Step integration:

1. Customize the RestAPI Url, and add it as a link in your back office
2. Receive our Callbacks, to auto-confirm each deposit (optional)
